01

ABOUT US

Engineering Company for Electrical Works was established in the Arab Republic of Egypt in 2007 and launched from the city of Cairo to operate in the fields of general contracting, construction, and integrated finishing works

Over more than a decade, the company has proven its efficiency and capability in executing numerous governmental and private projects, including ministry buildings, authorities, and various institutions, while adhering to the highest standards of quality, accuracy, and professional execution

02

MISSION

To continuously develop our skills and expand our range of services in the construction and projects sector, in line with the evolving needs of our clients, achieving the highest levels of satisfaction and quality

03

VISION

To be the first choice for our clients in providing contracting construction, and project management services with professionalism and trust

04

—
